I feel blessed to have had the opportunity to learn about something so wonderful!!!

Excellent – obviously they live at what they are teaching.

This is enlightening! I have learned so much and will recommend it to anyone. Thank you!

I was told that it would be a work assignment. It's the most fun and rewarding work that I have been involved in.

Fantastic! Thank you so much for your collective passion and dedication.

I loved it! I wish to run back to work right away and make a huge, instant, overall, sweep-everyone-off-their-feet overhaul! – But I'll follow the "rules" and take baby-steps and solicit the support of the right people in the right order.

Inspiring creativity and passion in people is a gift – one that both of you have. I look forward to being able to go forth and multiply.

Both Cheryl and Suellen are very good teachers, and Eden is near to their hearts. I find them so very sincere and honest. They both realize the journey is ongoing. They have provided me with tools I will need to succeed. I thank my manager for the opportunity to come to this workshop.

This has been a blast!!! Thank you for opening the window to hear the birds. To me this journey is a rainbow where I can help and keep shining and keep colorful bright colors.

Presented with energy. Lots of thought and time put into activities. Left with realistic expectations and associates can immediately go out to change their respective facilities.

Applicable for everyday living. Wish I knew this before I had children.

It was so refreshing to hear the philosophy presented by individuals so enthusiastic. It was evident that they live their lives according to this philosophy. Don't ever lose that enthusiasm. Thanks!

Eden principles have opened my eyes to an experience and education that will add to the spice of my life and in my workplace and people whom I will get in contact. Practicing the ten Eden Alternative principles will become my guideline in my life from now on.

Thank you. This was a wonderful experience. At times it made me want to cry, laugh and think.

I would recommend this conference to my friends and colleagues. It ensured we are on the right path and spurred me into thinking of other ideas to work towards. Excellent!

Very enjoyable. The best presentation I have ever been at. Makes the idea of coming to work more enjoyable.

Excellent philosophy. Could easily attend a few more days of training.

Very good. One of the best presentations I have participated in the last 35 years.

Very positive instructors.

Any pre-conceived ideas of what "Edenization" is were quickly dissipated. I find that I can now be completely on board and communicate positively to others about the philosophy.

Great stuff. I wish to be a big part of this journey as long as I work and live!

An extremely useful and inspiring conference.

Thank you for an excellent 3 days! Time flew by – loved the humour!

Both Cheryl & Suellen are excellent presenters, facilitators and coordinators.

Thank you for validating our efforts and for teaching us to think outside the box.
