

January 10, 2021

Dear Elders and Families,

I am pleased to share with you that Sherbrooke is officially out of suspect Covid-19 outbreak. This means that for the past two weeks, no Elders or staff have tested positive for Covid-19. All of the residents in the affected house are no longer restricted to their rooms.

This wonderful news is the result of our Elders and staff working together to ensure the health and safety of our community. I want to say thank you to our incredibly dedicated staff for following the proper infection control practices. I also want to thank our Elders, and especially those Elders in the affected house, who sacrificed a great deal these past two weeks for greater good of their community.

Thank you also to Public Health and Saskatchewan Health Authority officials who shared their knowledge and expertise with us to ensure the safety of our Elders and staff.

We will continue with all of our safety measures and infection control practices to keep Sherbrooke free of Covid-19. As always, please visit our website (www.sherbrookecommunitycentre.ca) and Facebook for the latest information from Sherbrooke.

Thank you for all of your prayers and support during this very challenging time.

Sincerely,

A handwritten signature in black ink that reads "Suellen Beatty".

Suellen Beatty - CEO
